

# THANKSGIVING

Thank God for the provision of a Christian structural engineer to join the team of consultants for the building project through a selection exercise.

Thank God for the topographical survey of the site which was completed in two days (20 & 21 September). This survey defines the platform level and boundary lines of the site, which are required for submission of the plans to the authorities.

Thank God for a fruitful meeting between the Technical Committee and the consultant team on Saturday 23 September to review the building requirements and plan for subsequent submission to the relevant authorities by the Architect.

# PRAYER

Pray for a suitable contractor to be selected to carry out the demolition work of the existing rear building.

Pray for the Structural Engineer as he studies the structural layout of the conserved building to advise on the removal of part or all of the existing walls within it.

## Being part of Beulah-Line:

**JOY  
AND  
BLESSING**

## Need to rely on God

*"Except the Lord build the house, they labour in vain that build it: except the Lord keep the city, the watchman waketh but in vain." Psalm 127:1*

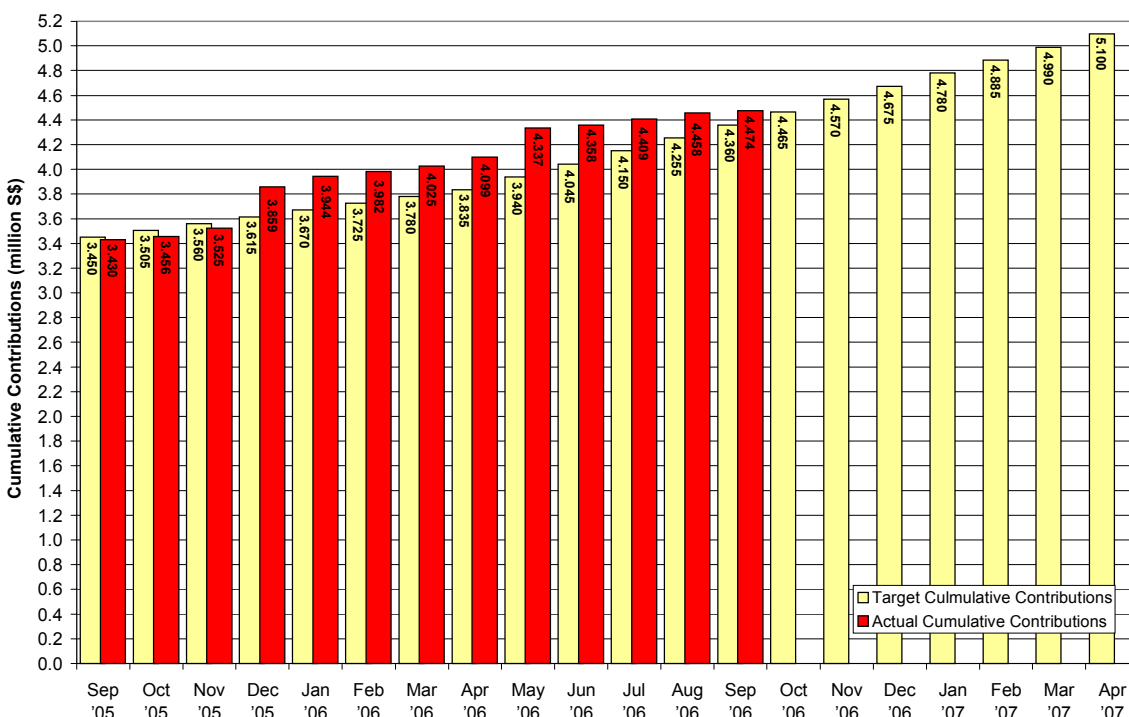

This verse was brought to our attention by Elder Chin at the very first committee meeting, exhorting us that the Beulah House Project is solely the Lord's work and all the labour which we put in will come to naught unless God crowns the project with success. What a timely exhortation this is, to set our spiritual focus in the right track even before the start of any discussions on how to get the work distributed.

Throughout the past few months of service, I am truly thankful for how the Lord has highlighted the many inadequacies that I have and the need to constantly rely on His strength and not my puny human efforts to complete His work. How true indeed that the Lord's work must be done with the Lord's help!

As we continue to put out hands on the together, it is our common prayer that our eyes will be fixed solely on our precious Lord.

Only a sinner saved by grace,  
Lijun

## Beulah Project – Target vs Actual Cumulative Contributions

### Adviser

Rev Charles Seet
